WATER METERS: Last meter reading of this year will be taken at the end of this month. To keep your average utility bill for the winter lower, **stop outdoor watering by October 25th. MAKE SURE METERS ARE UNCOVERED!** The public works crew has had problems reading meters because some are covered. Please do not store cars, trailers, woodpiles or other objects on top of city meters. This takes the crew more time to do their job efficiently.

The city has transitioned to **a new billing system**, and we request that all residents create their accounts to complete the switch. This transition will also help us update our customer records, as we currently lack email addresses & current phone numbers for many of our long-time residents to send them out notifications.
Please switch your account over using one of the following methods:

1. Scan the provided QR code.
2. Visit the City's website at sugarcityidaho.gov, click on the blue square link titled "New & Current Utility Accounts," select "CLICK HERE for utility billing," and follow the prompts.

October starts our **new fee schedule**. Rates for **water, sewer, and garbage** services will be increasing, and these changes will be reflected in your November utility bill. If you have any questions about the new fees, please refer to the city website (see blue square link call "City Fee Schedule" or give City Hall a call.
