The City of Sugar City, Idaho

Resolution No.: 2019 - 2

"A Resolution to Approve the Modified Equivalent Residential Unit (ERU) Calculator Recommended for the Purposes of Assessing Water and Sewer Fees in the City of Sugar City."

WHEREAS, the Council of the City of Sugar City, Idaho desires to approve the Modified Equivalent Residential Unit (ERU) calculator, which calculator is attached to this resolution, for the purposes of assessing water and sewer fees in the City of Sugar City;

WHEREAS, the ERU calculator has been recommended by Forsgren Associates, Inc. (engineer) for use with the water and sewer rates;

WHEREAS, the Council of the City of Sugar City, Idaho believes that this adjustment is acceptable and will provide a basis for moving forward with the anticipated growth and diversity in the city, especially as it relates to large water and sewer users;

NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF SUGAR CITY, AS FOLLOWS:

The City Council of the City of Sugar City, Idaho hereby approves the attached ERU calculator for purposes of assessing water and sewer fees in the City of Sugar City, and since the only change to the prior calculator is for the large users, it will apply to last year's rates as well as this year.

PASSED by the Council of the City of Sugar City on this 13^{th} day of June, 2019

APPROVED by the Mayor of the City of Sugar City on this 13th day of June, 2019.

(SEAL)

David D. Ogden,

Mayor

Proposed Water User	Meter Size	ERU Equivalent			Section 2
	1.5	5	4	4.00	7 47 (65, 61.1)

(a) Due to rounding in the calculations, all employees will round up when the decimal is at 0.24 (6 employees)

(b) Minimum of 1 ERU assessed if a stand-alone business. If daycare facility is a private in-home facility, then residence is assessed 1 ERU and the minimum ERU does not apply. Additional ERUs are assessed starting at 6 children/students/employees. Please note that the worksheet will assess 1 ERU at below 6 children/students/employees - if this is the case, ERU = 0, at 6 children/students/employees and above follow the worksheet calculation.

(c) If retail store has a public restroom, then add below in "Recreational and Public Service Section." If over 25,000 sq ft, submit business plan for ERU determination by City

(d) Industrial / Misc. Category

If in the opinion of the City a water user should be serviced by a meter that is 1.5 inch diameter or larger, the user rate shall be established as follows:

The water user shall submit a proposed service and meter size and projected peak and average water demand for the proposed facility.

The City will review the proposed water demand and proposed service and meter size and determine the required meter size for the facility.

Water rate will be charged based on the ERU equivalent for a given meter size as shown below.

Meter Size (inch)	ERU Equivalent
1.5	4
2	7
3	16
4	28
