Aug 5 – Planning & Zoning

7:00 p.m. by ZOOM

*****All city meetings are subject to change - see city website for meeting schedules*****

HAPPY INDEPENDENCE DAY!

COMMUNITY BREAKFAST:

July 10th from 7:00 a.m. to 10:00 a.m. at Heritage Park.

SUGAR DAYS CELEBRATION:

Come join the fun on July 10th from 11:00 a.m. to 8:00 p.m. at Heritage Park. There will be food, vendors, music, bounce houses, a mechanical bull, obstacle courses, a climbing wall and more! We are inviting vendors to sign up to join in the festivities, if you are interested please go to our website at sugarcityidaho.gov or call or come into city hall. Vendor booths are \$20 or \$25 if electricity is needed. Vendors need to fill out an application. If you already have a permit for sales, we need your permit number. Food vendors must have a photocopy of your state temporary license or exemption form with you in your booth. Call the local public Health Office at 208-356-3239 if you have questions about a temporary food license.

HOLIDAY GARBAGE PICKUP:

Because of Independence Day on Sunday, July 4th, garbage pickup for this week will be Saturday, July 10th.

IF YOU WOULD LIKE TO REDUCE YOUR WATER BILL, HERE IS A SUGGESTED WATERING TIP:

According to research from Utah State University in Logan, Utah, lawns don't require as much water as many of us are giving them. Lawns should receive

½ inch of water every 3 to 4 days. Place water cans or buckets around the yard when you water. As soon as you get ½ inch of water in the can, stop watering and remember how much time it took the sprinkler to put that much water out. Set your timer to only give that much water every 3-4 days. You will have to water more frequently as it gets hotter in July or August (every 2-3 days). Increasing the amount of water only washes through the soil. There are also many water savings tips out online.

Water Usage Facts from <https://www.networx.com/article/water-conservation-tips>:

1. The average North American uses 50-70 gallons of water daily. That amount can double in summer, with lawn and garden care, swimming pools, etc.
2. Three-quarters of all indoor water usage is in the bathroom.
3. In a typical North American home, the toilet accounts for about one-quarter of total water use.
4. Running a sprinkler for two hours can consume as much as 500 gallons of water.
5. Washing your driveway or sidewalk with a hose gobbles about 10 gallons per minute.

ALLEY CLUTTER:

We have noticed that many of the city alleys are being used to park campers, trailers, fire wood and other debris. Please remember that these city easements are for utility services, city equipment and emergency equipment only. **Please park and place all personal items on your own property, not in alleys.** To avoid possible fines, please also do not fill alleys until two weeks before the city's fall clean-up scheduled for next October.

****Storing debris on streets or alleys is a violation of city code 3-1-13:A.**

Storing items on streets or alleys is a violation of city code 6-1-2:A.**

A dumpster has been placed on the west side of Silo Park off of North Front & C Street for items that you need to discard. Household garbage is not allowed at the dumpster. Thank you for your cooperation!
