subject to change - see city  
website for meeting  
schedules\*\*\***

**SUGAR DAYS CELEBRATION & COMMUNITY**

**BREAKFAST:**

We would like to thank all those who joined the celebration. We especially want to thank our city staff, mayor, council, volunteers and sponsors who made the celebration possible.

**CITY DUMPSTER:**

The budget for the city dumpster has been expended and the dumpster removed. It will not be back this year.

**FALL CLEAN-UP:**

The city will have a fall clean-up mid October. No items may be placed in alleys for fall clean up until the first of October (two weeks before the cleanup date) per city code. Please do not put any items or trash in alleys. Non-compliance to this city code will result in an infraction at the cost of \$150.00.

**Storing debris on streets or alleys is a violation of city code 3-1-13:A.**

**GARBAGE COLLECTION:**

- PSI Environmental will not pick up garbage sitting outside of the provided container. If you need more than one can for your garbage service please call city hall to obtain a second can.
- There are many garbage cans reported as damaged. If you have a damaged can please call city hall to have a new one delivered.
- Please tie garbage bags tightly before placing garbage bags in containers.

**PARKING CODE:**

Please review city code for more detail on parking regulations.

**6-1-2 Parking Regulations.** "... no person shall stop, stand, park or deposit a trailer, shipping container, storage container, drop box or any other non-vehicular item in and on street parking spaces, for a period longer than one hundred twenty (120) consecutive hours, i.e., 5 days.

**5-2-6 G Recreational Vehicle Parking:** No person shall park an unoccupied recreational vehicle as defined by Idaho Code section 49-119 on any residentially zoned street or alley right of way for more than seven (7) consecutive days and no more than fourteen (14) days cumulative total in any one calendar year....

**SPRINKLER SYSTEMS:** Thank you to those who have had their backflow tests done or at least scheduled for them to be tested. If you didn't have a test on your sprinkler system backflow preventer done last year, please have one done this year and mail your report to city hall. This is necessary to ensure that contamination of the water supply will not happen in the event of a pressure loss to the water system.
